Profile

I am a Miami based web developer who loves technology and software development. I obtained my bachelor's degree at the University of Central Florida. I am a passionate problem solver always looking to learn new technologies in software development in order to utilize them and develop exciting applications. I currently have two years of experience working as a web developer in the healthcare industry with a focus on front-end technologies. I am excited, and look forward to a new opportunity that will contribute to the continuous development of my programming skills.

Technical Skills

JavaScript, Angular, Express.js, MongoDB, SQL, Node.js, SPARQL, RDF, Ember, React, HTML5, CSS3, SASS, Grunt, AJAX, jQuery, Responsive Design, Tailwinds, Bootstrap, Git, GitHub, Wordpress, Typescript.

Professional Experience

Web Application Developer   **April 2018 - January 2020**
INFOTECHSoft, Inc.
Miami, FL
